DOI	Title	Tags	Year
10.1016/j.ijepes.2015.03.016	An efficient PD data mining method for power transformer defect models using SOM technique	naranja	2015
10.1002/smr.534	Formalizing interactive staged feature model configuration	gris rojo	2012
10.1016/j.asoc.2015.05.058	Profit-based feature selection using support vector machines – General framework and an application for customer retention	naranja	2015
10.1145/2791060.2791087	Statistical analysis of probabilistic models of software product lines with quantitative constraints	gris	2015
10.15849/icit.2015.0114	Smart OptiSelect Preference Based Innovative Framework for User-in-the-Loop Feature Selection in Software Product Lines	gris	2015
10.1016/j.eswa.2015.04.017	Wordification: Propositionalization by unfolding relational data into bags of words	purpura rojo	2015
10.1145/2701319.2701320	Intelligent Techniques for Configuration Knowledge Evolution	purpura rojo	2015
10.1016/j.eswa.2011.01.030	Product development with data mining techniques: A case on design of digital camera	rojo	2011
10.1007/978-0-387-78189-1	Modern Multivariate Statistical Techniques	rojo	2008
